

First run starts 10/26
Second run starts 1/6

NEW Course on Climate Change & Sustainable Energy!

**Led by Steve Hoffman, Executive Director,
NW Center for Sustainability & Innovation [nonprofit organization]
25 Years Experience as Sustainability Professional
*Get to the Bottom of the Issues & Make a Difference!***

Get up to speed on climate and energy issues that are crucial to our economy and future. Help create a more sustainable future. Immerse yourself in field trips & transformative experience. Engage in dynamic discussions & watch compelling films. Discuss thought-provoking articles. Prepare for a new career direction. This innovative course can be taken in-person, online, or as a hybrid—at *your* pace, in *your* favored learning style. The instructor has 25+ years experience.
